

## The Safety Game

- Safety • Health
- Regulatory Compliance

"The Safety Game" is the most exciting new classroom safety training product in twenty years! A Jeopardy-style, computer-based training game, The Safety Game involves everyone in the training process. The games are so much fun that employees actually look forward to their training sessions! Employees are divided into teams that compete to obtain the best game score. The trainer acts as the game show "Host", controlling the game board through the computer (the computer image is projected on a wall or screen in the classroom, or hooked up to a large monitor that all employees can see). And when used with the videotape or DVD on the same topic, the Safety Games provide a complete safety meeting package ("Show the Video... Play the Game").

### GAMES

The Safety Game not only gives employees the information they need, it combines the best features of traditional classroom instruction (the opportunity for dialog and having employees' questions answered) with the technology of innovative computer-based training. Each Safety Game consists of a 20 - 25 question match. Questions are divided into categories of important information on the game's safety or regulatory compliance topic. Questions can be revised or replaced so that they conform to site or company-specific practices. Available Games include:

- Accident Investigation
- Back Safety
- Bloodborne Pathogens
- Driving Safety
- Electrical Safety
- Emergency Planning
- Eye Care & Safety
- Fire Prevention & Safety
- Forklift Safety
- Industrial Ergonomics
- Lock-Out/Tag-Out
- Office Ergonomics
- Office Safety
- Personal Protective Equipment
- Right-To-Know (Chemical Hazards)
- Respiratory Safety
- Safety Audits
- Safety Orientation
- Slips, Trips & Falls
- Workplace Violence

### VIDEO/DVD AND GAME PACKAGES

The Safety Games can also be purchased with MARCOM's videotape and DVD programs on the same subject, for the ultimate safety training session ("Show the Video... then Play the Game"). As employees become involved in playing the games, they will retain even more of the information shown in the video/DVD programs. Video/DVD and Game packages are available on the following topics:

- Accident Investigation
- Back Safety
- Bloodborne Pathogens
- Driving Safety
- Electrical Safety
- Emergency Planning
- Eye Care & Safety
- Fire Prevention & Safety
- Forklift Safety
- Industrial Ergonomics
- Lock-Out/Tag-Out
- Office Ergonomics
- Office Safety
- Personal Protective Equipment
- Right-To-Know (Chemical Hazards)
- Respiratory Safety
- Safety Audits
- Safety Orientation
- Slips, Trips & Falls
- Workplace Violence

### KIT/GAME PACKAGES

Safety Games can also be used with MARCOM's "Safety Meeting" and "Regulatory Compliance" kits. Each kit includes a Videotape or DVD, 5 Posters and 30 Employee Booklets... all designed to work together. Kits also have reproducible Scheduling & Attendance Forms and Training Certificates. Placing the posters in prominent areas like cafeterias and break rooms reminds employees of the safety theme. Showing the videotape or DVD, playing the associated Safety Game and giving employees the booklets to reinforce the safety message provides the ultimate training experience.

- Accident Investigation
- Back Safety
- Bloodborne Pathogens
- Driving Safety
- Electrical Safety
- Emergency Planning
- Eye Care & Safety
- Fire Prevention & Safety
- Forklift Safety
- Industrial Ergonomics
- Lock-Out/Tag-Out
- Office Ergonomics
- Office Safety
- Personal Protective Equipment
- Right-To-Know (Chemical Hazards)
- Respiratory Safety
- Safety Audits
- Safety Orientation
- Slips, Trips & Falls
- Workplace Violence

## INFORMATION COVERED

Each game provides questions based on the topics they address. Information covered in the Games includes, but is not limited to:

### **Accident Investigation**

- Securing an accident scene.
- Root-cause analysis.
- Investigative interviews.
- Reporting "near misses".

### **Back Safety**

- How the back works.
- Types and causes of back injuries.
- Injury prevention and safety practices.
- Proper lifting techniques.

### **Bloodborne Pathogens**

- Bloodborne diseases.
- The Exposure Control Plan.
- Emergency procedures.
- Signs, labels and PPE.

### **Driving Safety**

- Vehicle inspection.
- Mental preparation.
- Driving at night.
- Adverse weather conditions.

### **Electrical Safety**

- How electricity works.
- Fuses and circuit breakers.
- Outlets, plugs & grounding.
- Lock-out/tag-out.

### **Emergency Planning**

- The emergency plan.
- The crisis management team.
- Evacuation.
- Communications.
- Involving outside agencies.
- Practice sessions and drills.

### **Eye Care & Safety**

- How the eyes work.
- Types and causes of eye injuries.
- Care and safety practices.
- Personal protective equipment.

### **Fire Prevention & Safety**

- Common causes of workplace fires.
- Using fire extinguishers.
- Evacuation.
- First Aid.

### **Forklift Safety**

- Equipment check-out.
- Surveying the work area.
- Correct operating procedures.
- Equipment maintenance.

### **Industrial Ergonomics**

- The physiology of the body.
- Body movements and their effects.
- Recognizing ergonomic problems.
- Practical solutions.

### **Lock-Out/Tag-Out**

- Background of the Standard.
- Major compliance requirements.
- Lock-out/tag-out concepts.
- Locking and tagging electrical, pneumatic & hydraulic systems.

### **Office Ergonomics**

- Physiology of the body.
- Parts of the body most affected.
- Pragmatic preventative measures.
- Correct use of office equipment.

### **Office Safety**

- Slips, trips and falls.
- Steps and ladders.
- Proper lifting.
- Electrical safety.

### **Personal Protective Equipment**

- Available protective equipment.
- Equipment variations.
- Matching equipment to the hazard.
- Proper use of equipment.

### **Respiratory Safety**

- How the respiratory system works.
- Causes of respiratory problems.
- Safety practices.
- Respiratory safety equipment.

### **Right-To-Know (Chemical Hazards)**

- Chemical hazard concepts.
- Material Safety Data Sheets.
- Types of hazardous chemicals.
- Safe handling practices.
- Container labeling.
- Personal protective equipment.
- Spills and cleanup.

### **Safety Audits**

- Workplace analysis.
- Administrative controls.
- Engineering controls.
- Accident investigation.

### **Safety Orientation**

- Developing "safety sense".
- Hazard evacuation.
- Tool use and maintenance.
- Personal protective equipment.

### **Slips, Trips and Falls**

- Gravity, friction and momentum.
- Causes of slips, trips and falls.
- Avoidance techniques.
- The role of safety shoes.

### **Workplace Violence**

- Warning signs.
- Threats and verbal abuse.
- Physical assault.
- Sexual harassment.

### **Other Products**

Videotapes, DVD's and kits are available on other regulatory compliance topics such as "Hearing Conservation and Safety", "OSHA Recordkeeping" and "Scaffolding Safety", as well as on general safety topics such as "Computer Workstation Safety", "First Aid", "Ergonomics", "Welding Safety" and "Sexual Harassment". Interactive CD-ROM courses on these and other topics (more than 100 in all) are also available. Go to MARCOM's website at [www.marcomltd.com](http://www.marcomltd.com), for more information.

### **Online Training**

Interactive versions of the MARCOM videotape/DVD programs that are used with the Safety Games, as well as over 80 other interactive courses, are available online. Just go to [www.marcomltd.com](http://www.marcomltd.com), click on "Products" then on "Online Training" to view a demo course.
