

Safety and Regulatory Compliance Training

- DVDs • Safety Meeting and Compliance Kits
- Interactive CD-ROM Courses • Online Internet-Based Training

Today, maintaining a safe and healthy work environment and complying with OSHA's safety training requirements is more important than ever before. OSHA has become increasingly aggressive enforcing their regulations. Worker's compensation and healthcare costs keep growing. And the drive toward achieving more productivity continues. Safety and health training is key to dealing with all of these issues.

MARCOM's Safety and Regulatory Compliance training products provide all of the materials you need to conduct safety meetings, train new employees and meet OSHA's regulatory compliance requirements... effectively, efficiently and at a reasonable cost.

SAFETY DVDs AND KITS

MARCOM's general safety DVDs and "Safety Meeting Kits" provide the training employees need to work safely. DVDs come with a comprehensive Leader's Guide, Scheduling and Attendance Forms, Employee Quizzes and Training Certificates. "Safety Meeting Kits" include the DVD, 5 Posters and 30 Employee Booklets... everything you need to promote and conduct a complete safety meeting. Kits, DVDs, Posters and Booklets are available on over 45 safety topics. Also available as Interactive CD-ROM and online courses.

REGULATORY COMPLIANCE DVDs AND KITS

MARCOM's regulatory compliance DVDs and kits provide the information that OSHA and the DOT require be given to employees to comply with their training regulations. Each DVD comes with a comprehensive Leader's Guide, Scheduling and Attendance Forms, Employee Quizzes and Training Certificates. Compliance Kits include not only a DVD, Posters and Employee Booklets but also a complete Compliance Manual with a pre-formatted, "fill-in-the-blank" written compliance program... everything that you need for implementing a complete compliance program. DVDs and Kits are available on over 18 regulatory compliance topics. Also available as Interactive CD-ROM and online courses.

CONSTRUCTION SAFETY SERIES

The accident and injury rates in the construction industry are among the highest in the nation. But it can be difficult to find safety and regulatory compliance training that construction employees can relate to. MARCOM's "Construction Safety Series" solves this problem. DVDs come with a comprehensive Leader's Guide, Scheduling and Attendance Forms, Employee Quizzes and Training Certificates. "Safety Meeting Kits" include the DVD, 5 Posters and 30 Employee Booklets. "Regulatory Compliance Kits" include a Compliance Manual as well. Kits, DVDs, Posters and Booklets are available on over 20 topics. Also available as Interactive CD-ROM and online courses.

HAZWOPER TRAINING PACKAGES

MARCOM's HAZWOPER Training Series provides employees with information the regulation requires them to receive in their training sessions. By combining various programs in this series, "training packages" can be configured to help meet the requirements in all seven of OSHA's levels of HAZWOPER training. DVDs come with a comprehensive Leader's Guide, Scheduling and Attendance Forms, Employee Quizzes and Training Certificates. Also available as Interactive CD-ROM and online courses.

LABORATORY SAFETY SERIES

This series of 12 DVD programs has been created to provide laboratory employees with the specific training that they need to do their jobs safely. Filmed in real working laboratories, a number of different types of laboratory environments are shown, so that every employee will relate to what they are seeing. The DVDs come with a comprehensive Leader's Guide as well as reproducible Employee Quizzes, Scheduling and Attendance Forms, and Training Certificates. Also available as Interactive CD-ROM and online courses.

INTERACTIVE CD-ROM COURSES

Using a power combination of audio, full-motion video, text and colorful graphics, MARCOM's Interactive CD-ROM courses provide one of the most cost-effective safety and regulatory compliance training options available today. Courses come with a free learning management system (LMS) that installs automatically and lets trainers define curricula, establish log-in procedures and even set up "pre" and "post" tests. The LMS also does all of the recordkeeping necessary to track which courses employees have taken, test scores and other important performance data. Courses are available on over 130 safety and regulatory topics.

ONLINE INTERNET-BASED TRAINING

Online training can be used virtually anywhere, at any time. Employees on second or third shift can take the training as easily as first-shift employees... new hires can be trained as soon as they walk in the door... and companies with a number of locations can get the same training to all of their employees. MARCOM's online training system gives you the best of the online training world... one of the largest libraries of courses in the industry... affordable and straightforward pricing... and a comprehensive, easy-to-use online learning management system (LMS) that does all of the recordkeeping necessary to track employee activity and performance. Courses are available on over 130 safety and regulatory topics.

**Products are available on more than 100 different topics (see the other side of this sheet for a complete listing).

call Best Fire Equipment's customer service group at (800) 300-4114.**

MARCOM's training libraries include products on the following topics. Many of them are available in Spanish as well as English.

Regulatory Compliance

- Asbestos Awareness
- Bloodborne Pathogens*
 - Commercial/Industrial
 - Healthcare
 - First Responder
- Confined Space Entry*
- DOT HAZMAT General Awareness
- DOT HAZMAT Safety Training
- DOT HAZMAT Security Awareness
- DOT HAZMAT In-depth Security Training
- Electrocution Hazards
 - Employer Responsibilities
 - Protecting Employees
- Emergency Planning
- Forklift/Powered Industrial Truck Safety*
- Globally Harmonized System (GHS)
 - Introduction to GHS
 - GHS Safety Data Sheets
 - GHS Labels
- Hazard Communication ("Right-To-Know")
 - Industrial
 - Auto Service
 - Building/Construction
 - Cleaning/Maintenance
 - Healthcare
 - Hospitality
- Hearing Conservation*
- Indoor Air Quality
- The OSHA Laboratory Standard*
- The OSHA Lead Standards*
 - Industrial
 - Construction
- Lock-Out/Tag-Out*
- Personal Protective Equipment*
 - Industrial
 - Construction
- Respiratory Protection*
- OSHA Recordkeeping
 - For employees
 - For managers/supervisors
- Suspended Scaffolding Safety*
 - Industrial
 - Construction
- Supported Scaffolding Safety*
 - Industrial
 - Construction
- Guarding Against Tuberculosis
 - Healthcare
 - First Responder
 - Institutional

* "Refresher" versions of these programs are also available on DVD.

General Safety and Health

- Accident Investigation
- The ANSI MSDS
- Back Safety
- Compressed Gas Cylinders
- Computer Workstation Safety
- Conflict Resolution
 - Industrial
 - Office
- Crane Safety
 - Industrial
 - Construction
- Driving Safety
- Drug and Alcohol Abuse
 - For employees
 - For managers
- Electrical Safety
- Ergonomics
 - Industrial
 - Office
- Eye Safety
 - Industrial
 - Construction
- Fall Protection
 - Industrial
 - Construction
- Fire Extinguishers
- Fire Prevention & Safety
 - Healthcare
 - Office
- First Aid
 - Industrial
 - Construction
- Fitness and Wellness
- Hand and Power Tool Safety

- Rigging Safety
 - Industrial
 - Construction
- Safety Audits
- Safety Housekeeping and Accident Prevention
- Safety Orientation
 - Industrial
 - Construction
- Safety Showers & Eye Washes
- Sexual Harassment
 - For employees
 - For managers/supervisors
- Sexual Harassment Investigations
- Slips, Trips & Falls
- Welding Safety
- Winter Safety
- Workplace Harassment
 - Industrial
 - Office
- Workplace Stress
- Workplace Violence

Laboratory Safety Series

- Orientation to Laboratory Safety
- Compressed Gas Cylinders
- Preventing Contamination
- Electrical Safety in the Laboratory
- Planning for Laboratory Emergencies
- Laboratory Ergonomics
- Flammables and Explosives
- The OSHA Formaldehyde Standard
- Safe Handling of Laboratory Glassware
- Laboratory Hoods
- Material Safety Data Sheets
- Safety Showers and Eye Washes

HAZWOPER Series

Using the 23 courses in this series, packages can be configured that cover the HAZWOPER training requirements for "Annual Retraining" through "40-Hour Training". Packages are available for:

- Annual Retraining
- Emergency Response: Awareness
- Emergency Response: Operations
- Supplemental Training
- Emergency Response: HAZMAT Technician
- General Training
- 40-Hour Training

Courses Include:

- Understanding HAZWOPER
- Understanding Chemical Hazards
- The Emergency Response Plan
- The Site Safety & Health Plan
- HAZMAT Labeling
- Confined Space Entry
- Introduction to HAZWOPER Retraining
- Personal Protective Equipment
- Medical Surveillance Programs
- Monitoring Procedures and Equipment
- Accidental Release Measures and Spill Clean-up Procedures
- Personal Protective Equipment/Decontamination Procedures
- The ANSI MSDS
- Handling Hazardous Materials
- Work Practices and Engineering Controls
- Respiratory Protection
- Fire Prevention and Safety
- Exposure Monitoring and Medical Surveillance
- Dealing with the Media in Emergency Situations
- Safety Orientation
- Electrical Safety in HAZMAT Environments
- Heat Stress
- Decontamination Procedures
